

**NSW Service for the Treatment and
Rehabilitation of Torture and Trauma Survivors
CLINICAL MASTER CLASS EVENING**

**Wednesday, 3 June 2009
FREE PRESENTATION**

**DON'T BE FOOLED BY PAINFUL MEMORIES;
IT'S THE TRAUMATIC MEMORIES THAT COUNT**

Guest Speaker Profile

Dr Kamal Touma is a Medical Psychotherapist in private practice in Sydney. His main interest is trauma and its trans-generational transmission. He is the principal and chief editor of www.psychevisual.com a psychological web journal on the Psyche in Health and Illness.

Presentation Summary

Analytical Psychotherapy or long term 'talking therapy' has, until now, been conceptualized as being very different from and at times at odds with the Eye Movement Desensitization and Restructuring (EMDR) technique.

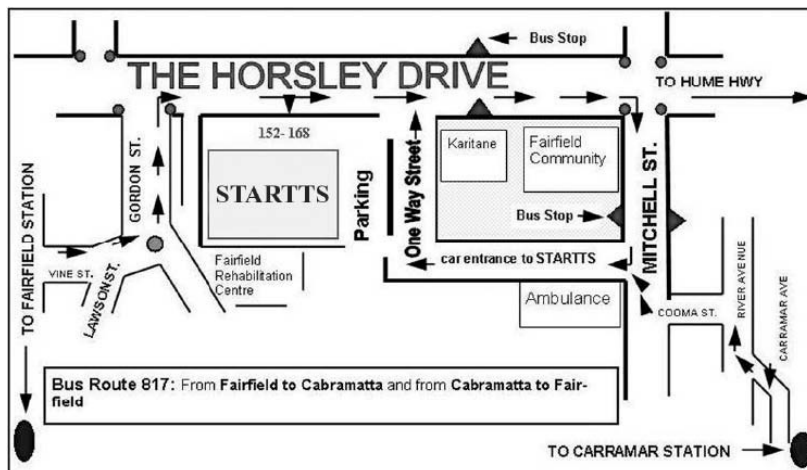

By drawing a clear differentiation between painful and traumatic memories, Dr Touma suggests analytical conversation and EMDR technique are in fact synergistic and complementary.
