

Where STARTTS sees clients

STARTTS is a NSW based service and sees clients in Sydney and regional locations at:

- STARTTS' offices
- STARTTS' outreach locations such as TAFEs and community health centres
- Schools

How STARTTS can support you

- Access free resources on our website
- Request a training for your workplace (free for health related organisations)
- Attend STARTTS' workshops, seminars and presentations on refugee trauma
- Debriefing, clinical consultation and supervision available in particular instances

STARTTS staff

STARTTS staff are a multidisciplinary and multicultural team of professionals with strong community links. All STARTTS staff undergo regular supervision and professional learning to maintain a high standard of service delivery.

About STARTTS

STARTTS is a specialist, non-profit organisation that for 30 years has provided culturally relevant psychological treatment and support, and community interventions, to help people and communities heal the scars of torture and refugee trauma and rebuild their lives in Australia. STARTTS also fosters a positive recovery environment through the provision of training to services, advocacy and policy work.

and Rehabilitation of Torture
and Trauma Survivors

Information for

Service Providers

Who STARTTS helps

STARTTS helps people from refugee backgrounds, including asylum seekers, who were forced to leave their country due to persecution in the context of political conflict, organised violence and human rights violations.

Why STARTTS helps

Refugee trauma and the stressors of resettlement or applying for protection in Australia can cause great stress, pain and fear, and negatively impact on people's health and everyday functioning. With timely and appropriate support people are better able to harness their own resources to heal and lead more healthy and productive lives.

What age groups does STARTTS help?

STARTTS helps people of all ages, from early childhood to older people from refugee backgrounds.

Does it matter when or how the client came to Australia?

STARTTS helps all people from refugee backgrounds no matter when or how they arrived in Australia.

How much do services cost?

All STARTTS services to clients from refugee backgrounds are free of charge.

My client doesn't speak English

Many STARTTS staff are bilingual, and all use professional interpreters when required.

How STARTTS Helps Clients

Individual interventions:

- Assessment of trauma symptoms and their impact on daily functioning
- Trauma treatment using a range of psychotherapeutic approaches tailored to the client's needs
- Referrals to other STARTTS services: Psychiatrist, Physiotherapist, Acupuncturist, Nutritionist, Neurofeedback and more
- Referrals to external services as needed

Group programs:

- Group counselling
- Information sessions
- Social support groups
- Families in Cultural Transition (FICT)
- Youth camps
- Sports and art groups
- Excursions

Referring to STARTTS

STARTTS accepts referrals from any source, including self-referrals.

To make a referral to STARTTS:

Call (02) 9646 6700

(ask for Intake)

Email STTS-IntakeGeneral@health.nsw.gov.au

(referral form available on the STARTTS website)

Requesting consent

Consent must be obtained from clients or the parent/guardian for clients 16 years and under. Explain services in a non-threatening way, e.g. "Someone to talk to about your worries and difficulties".

Information to provide with the referral

Provide as much information as possible so the intake counsellor can assess the client's needs.

How soon will we follow-up with your client?

STARTTS has a managed waiting list and clients with the highest needs are prioritised. Most clients are allocated to a counsellor within 2-4 weeks.

What feedback will you get?

You will be notified when the client is allocated a counsellor. STARTTS will share relevant information with service providers only if the client gives consent.

When a referral is not appropriate

Refer clients in a crisis situation (e.g. psychotic disorders, suicide attempts) to your local mental health team or hospital emergency department.
